00:00 - 00:15	Host on camera looking frustrated while manually clicking through Suno's 3-dot dropdowns to download 1 track at a time.	If you've ever spent three hours clicking 'three dots... download audio... three dots... download audio' just to back up your Suno songs, stop right now. There's a 1-click shortcut that downloads your entire 1,000-track library in literally 10 seconds.	■ STOP CLICKING 3 DOTS ■ 1,000 Songs in 10s
00:15 - 00:35	Screen recording showing SunoGet.com loading in 0.2s, showing the big orange ■ Download Suno Workspace' button.	Today, I'm showing you SunoGet.com. It's completely free, requires zero software installations, zero API keys, and runs 100% privately in your browser. Let's set it up in under 30 seconds.	SunoGet.com 100% Free & Open

Act 2: The 30-Second Setup & Live Demonstration

■ **Director's Production Note:** Clear zoom-in on the browser bookmarks bar. Highlight the drag-and-drop motion.

Timestamp	Visual Cues / On-Screen Action	Voiceover / Spoken Script (Word-for-Word)	On-Screen Graphics & Text
00:35 - 01:10	Zoom into SunoGet Tab 2 (1-Click Downloader). Cursor grabs the ■ Download Suno Workspace' button and drags it into the Chrome bookmarks bar.	Step one: Head over to SunoGet.com and click Tab 2: '1-Click Downloader'. See this big orange button? Simply click, drag, and drop it straight into your browser's bookmarks bar. If your bookmarks bar is hidden, press Command+Shift+B on Mac or Control+Shift+B on Windows.	Step 1: Drag to Bookmarks Bar (Cmd+Shift+B / Ctrl+Shift+B)

01:10 - 01:50	<i>Switch tab to suno.com/create. Click the bookmarklet. Instant batch download progress toast fires and downloads populate sequentially.</i>	Step two: Open suno.com and make sure you're signed in to your account. Step three: Click that new 'Download Suno Workspace' bookmark. Instantly, SunoGet scans your entire library, pulls the full-bitrate MP3 files, formats them with clean numbered track titles, and downloads every single song straight to your Downloads folder!	Step 2: Open Suno.com Step 3: Click Bookmarklet! ■ Full 320kbps MP3s

Act 3: Pro-Tips, File Naming & Organization

■ **Director's Production Note:** Show the Finder / Windows Explorer folder showing clean numbered MP3 files.

Timestamp	Visual Cues / On-Screen Action	Voiceover / Spoken Script (Word-for-Word)	On-Screen Graphics & Text
01:50 - 02:30	<i>Finder window showing clean filenames like '01 - Neon Horizons.mp3' instead of messy UUID strings.</i>	Notice how SunoGet automatically numbers and names every file cleanly with 'Track Number - Title.mp3'. This means you can drag and drop your whole folder directly into your DAW, iTunes, Serato, or Rekordbox with zero manual renaming.	Clean ID3 Tagging & Filenames DAW & DJ Ready

Act 4: Sponsor, Support & Call To Action

■ **Director's Production Note:** Warm, genuine call to action. Highlight DistroKid 7% discount and Buy Me A Coffee.

Timestamp	Visual Cues / On-Screen Action	Voiceover / Spoken Script (Word-for-Word)	On-Screen Graphics & Text
02:30 - 03:15	<i>Show SunoGet coffee lounge and DistroKid 7% VIP discount button.</i>	Once you've backed up your music, if you want to distribute your tracks to Spotify, Apple Music, and TikTok while keeping 100% of your royalties, use our 7% VIP discount link for DistroKid in the description below.
